Modern warfare has a new form. The days of international combat are fading. So how do major world powers maintain control over their people today?

War Against the People is a disturbing insight into the new ways world powers such as the US, Israel, Britain and China forge war today. It is a subliminal war of surveillance and whitewashed terror, conducted through new, high-tech military apparatuses, designed and first used in Israel against the Palestinian population. Including hidden camera systems, sophisticated sensors, information databases on civilian activity, automated targeting systems and, in some cases, unmanned drones, it is used to control the very people the nation's leaders profess to serve.

Jeff Halper is Co-Founder of the Israeli Committee Against House Demolitions (ICAHD). He is the author of *An Israeli in Palestine* (Pluto, 2008) and *Obstacles to Peace* (ICAHD, 2013).
